Britannica® Software  **DesignWare®**

Introducing the Microsoft® Excel Win-Win Guarantee.

Microsoft® Excel takes full advantage of the power of 286- and 386-based computers. It lets you work faster and consolidate data more easily. It lets you create annual-report-quality output and produce presentation graphics. And it lets you create macros easily and build custom programs. Since Microsoft® Excel is compatible with Lotus® 1-2-3®, it's easy to integrate into your office.

Worksheet for worksheet, chart for chart, Microsoft® Excel is far superior to Lotus® 1-2-3® (or its much-promised releases) that we're willing to guarantee it through the end of the decade. Use it. Compare it. And if you're not satisfied, simply return it for a full refund.

 Learning Technologies®

Appleworks® 2.0

Appleworks® is easy to learn, because its word processor, database manager, and spreadsheet share most of the same simple commands and procedures. And since they are designed to work together, you can share information among the three programs. And you can work with up to 12 different Appleworks files at one time, as conveniently as if they were on your desk.

King's Quest IV
The Perils of Rosella

Travel with Rosella, the beautiful princess and heroine of King's Quest IV. Journey to a town far away. Search for the enchanted fruit that will restore life to her father's lips, and safely return to her homeland. Face creatures from ancient legend, from beautiful unicorns to hideous ogres. Acquire treasures that are necessary to ensure your safety. Save Genesta from imminent death by destroying the evil Lolotte and returning the sacred talisman which once rested around her neck.

Multiple quests await you, and each is essential if you hope to ever see your father again.

For the IBM!
